

Green Gift Ideas For the Holidays Offered from GoGreenInStages.com

Environmentally conscious gifts that are useful, affordable and socially responsible available this holiday season.

Montreal, Quebec November 24, 2008 -- GoGreenInStages.com, a leading environmentally friendly products store today announced a collection of Green Gift Ideas for the 2008 Holiday season.

This year's collection of Gift Sets includes a BPA-free Eco-Toddler kit, a collection of quality Waste Free Lunch Kits, a set of His and Hers stainless steel water bottles and Sustainable Energy products for emergency and every day use.

“Our focus has been on providing healthy, useful, eco-friendly choices for anyone concerned about the environment,” says Julia Mackiewicz, founder of GoGreenInStages.com. “We put together these gift ideas for people specifically looking for Green Gifts for their family and friends.”

With concerns over Bisphenol-A in the news many of these gift sets offer safe alternatives for people concerned about BPA. Environmentally responsible gifts such as Waste Free Lunch Kits (in 72 different configurations), soap nuts, jute products and organic hand sanitizers are also being offered this year. All products offered are from quality high-end suppliers such as Klean Kanteen, Foogo-Thermos and Built NY.

Visit www.GoGreenInStages.com for more information on Green Holiday Gift Ideas. Fast, inexpensive delivery is offered across Canada for a flat rate starting at \$7.50. Local delivery in the Montreal West Island area is free. Customers can place orders online for delivery within Canada up to December 12th for guaranteed delivery by December 24th.

About GoGreenInStages.com

GoGreenInStages.com is a Montreal company focused on providing healthy and environmentally friendly products for people interested in 'green' alternatives. The company operates an online store in addition to offering eco-friendly fundraising programs for schools and community organizations.
